Monday June 10th

Lat at noon 19.47 S long by Chron 60.30 E = At 4 P.M 19.35 S 60.04 E

Saw a school of S. Whales lowered turned up six had 3 along side

Fair weath with fresh S E wind A.M steared W & N W at three P.M raised a school of Sperm Whales about four lowered the three larboard boats soon after we lowered the starboard boat each boat struck and turned up a whale the bow boat two, and we got the starboard boat whale to the ship at 5.15: then I let the boat go and hook on to a two dead Whale the larboard boat came on board store some; two Whales with each of the other two boats at 7 took the mast (3 Two whales at three lantherns (lite) for the other boats to come on board (was then less than a mile off seem after they took their lights) some after a while then took fast on a Hawser, strong wind breezing on, lost two of the main boats

Cruising for Sperm Whales between Rodrigues & Mauritius

Remarks Tuesday June 11th 1878 Civil Time

Lat by Obs 19 05 S Long 60,16 E

Barometer 32. Strong S E wind and some cloudy with a large swell rugged at nine A M one of the Fluke chain broke but the whales got were round and cut in the bodies of the other to but the Heads go at three P M made sail working up to find the other boats took in the fore topsail at six P M about three hours on each tack (at six A M set the foresail & all cut up the blubber and boiling) strong squalls

Wednesday June 12th

Lat by Obs 19 15 S Long by chron 59,50 E

32.1 Fresh gale from S E with squalls trying find the boats no whales with Men by the wind close reefed M. Topsail and foresail & all cut up the blubber and boiling

Thursday June 13th

Lat by Obs 19,20 S Long by chron 59,35 E

32.4 Fresh gale from S E with some squalls were round several times the watch employed boiling finished at ten at night

Friday June 14th

Lat by Obs 19 26 S Long by chron 57,20 E

31,5 Hazy with strong S E wind made some sail about half on each tack set the fore topsail

Saturday June 15th

Lat by Obs 19.5 S Long by chron 59 13 E

32 Hazy with fresh gale from S E took in the fore topsail all employed broke cask and stowed down 10 in After hold

Sunday June 16th

Lat by Obs 19 30 S Long by chron 58,30 E

32 Fair weather with a moderate gale from S E at night at 11 steared off W b S set all drawing sails at four P M round Island bearing N one mile got up cables and anchors off the bows at 5,30 Flat Island light bearing N at nine in evening came to an Anchor near the Light Boats at Port Louis in 11 fathoms of water but out 5 fathoms cable

Remarks on board of the Bark Atlantic

Disaster at Sea by which we lost ten Men and two Whale Boats with lines craft &c and four 3/4 Whales as before stated on the tenth of June Lat 19,35 Long. 60,24 E Fair weather with strong breezes from S E at four P M a large School of Sperm Whales in site lowered all four boats and turned up six of them The Starboard boat took the first whale to the ship then I sent her off in charge of a Boatsteerer with four men for a dead whale soon after the larboard boat came onboard stove some, Two whales with each of the other two boats about seven o'clock took the two whales with the waist boat along side The wind breezing on strong I set two Lights for the other boats to leave the whales and come on board then less than a mile off about eight o'clock their Lights disappeared which was near together as they did not come I concluded that they had taken the responsibility to disregard the signals made at the ship and lay by the whales all night. The ship was put under close reef main sail, and signal fires kept burning During the night had several strong squalls at daylight the Boats were not in sight but expecting to see them soon cruised in the vicinity til the 16th put away for Mauritius in hopes of finding them there, The following are the names of the missing men:

Francis Peters, 3d officer of	Say Head	Mass
Wm A Read, Boat Steerer	Dartmouth	Do

Dartmouth, Jan. 10th 1880

W. B Russell

U.S.A. Navy

Sir, I arrived a letter from you in relation to Ruben Degroat who was with me in the Bk Atlantic last voyage until the 10th of June 1878 about four Pts or Islands of them Whales in site covered four boats and learned it in obtained six of them got them to the ship and two of the whale boats got the other three together, Ruben Degroat was in one of these boats in charge of the 6th mate a Bay Head Indian by the name of Sabens) it came on dark and strong wind so that we could not get the whales to the ships, I had lights & rockets & signals for them to leave the whales and come on board, each of the boats had a light &

Remarks on board of the Bark Atlantic
Disasters at Sea by which we lost two
Men and two Whale Boats with lines Craft &c and four
Sperm whales as before stated on the 16th of June Lat 17.38
Long 30.24 This weather with strong breezes from E to
E by S till 8 P.M. a large School of Sperm Whales in site
lowered all four boats and harpooned one six of them
The Starboard boat struck the first whale to the ship then I
sent two off in charge of a Mate two men for a
two head whale soon after the Larboard boat came on board
Saw some two whales with each of the other two boats about
seven o'clock took the two whales with the waist boat along side
The wind blowing on strong I set two lights for the other
boats to have the whales and come on board then less than
a mile off about eight o'clock their Lights disappeared who
was near together as they did not come I concluded that they
had taken the responsibility to disregard the signals made
at the ship and lay by the whales all night. The ship
was just under close reef mainsail and signal lights burning
During the night had several strong squalls at daylight
the Boats were not in sight but expecting to see the season
cruised in the vicinity till the 16th put away for Flores
in hopes of finding them there The following are the names
of the missing men

Lost an Anchor

Overcast with moderate wind and some squalls at daylight got up our cable and Anchor off of the bower stood in to the Roadstead at James Town and let go an anchor in about 17 fathom but before the Anchor reached the bottom the first link of the Cable through which the Shackle Pin was, broke and lost the Anchor then let go the other anchor brought up in 18 fathom furled the sail and washed outside

Whilst lying at Anchor dragged and tryed to get fast to last Anchor several times without success. Bought a new Anchor of [illegible] weight 18 cwt weight 1 quarter 24 or 2057 pound. Delivered on board for 12 Dollars Gave two days liberty to each watch and some of them on shore most of the nights painted Ship outside

Had shipped to us per Schr Lottie Baird Supplies as follows

20 Barrels of Beef, 20 lbs of Pork, 2 lbs of Arrow, 1 lbl of Flour & bushels of Bran 41 lbs of Tea 100 lbs of Rice, 2 bbls bibe Dried meat, 203 lbs of Sutton 180 Gallons of Molasses 1 lbl of Apples 1 Box canned goods, 805 lbs of Sugar, 3 tons of Coal, 1 Bbl Whale oil 1 Box Coffee, 8 bush of Barley, 2 bbl of Taproc & Sounds, 27 0 lbs of Bread 1/2 bbl Pickles 1 lbs of Saleratus, 6 Monkey Jackets, 4 Pr of Blankets, 2 Pr of Thick Pants, 12 Pr of Drawers 12 Wool Shirts, 12 Prs of Socks, 12 under Shirts, 92 Brown Drill, 2 whale Boats, 11 Bbls Potatoes One of the whale Boats I transferred to the B.K. C.W. Morgan, and sold to her one of our Steerages

We transhipped to Schooner Lottie Baird Capt. Berry 3 Gallons Sperm Oil No 1 to 13 and 3 Gallons of W oil No 14 to 26 at $1,50 per lb and 11 Packages of W Bone 900 Pounds, 1,d per lb, Set up Shocks got 40 Dozen of fresh Water lbs of Sweet Potatoes at 2,0 [illegible] lbs of Onions at 4 Dozen of Cabbages lbs of Pumpkins, 2d per lb 3 bushels of Beans 2 bushels of Bread 2
